# RESEARCH AND TECHNOLOGY CAPACITIES

## Research institutes and international centers

- Caspian Sea water basin
- Gilan Studies
- Caspian International Climate Research Center

Laboratory of Biological Anthropology

## Centers of excellence

- Sports and health sciences,
- Mathematical modeling, optimization, and combinatorial calculations

## Research cores

- Nuclear fusion energy
- Tourism
- Functional plasma
- Cultural studies and ritual art
- Improvement of vegetable and summer crops
- Poultry
- Organizational architecture at the University of Guilan
- Hazelnut technology
- Production and processing of seeds of agricultural plants
- Horticultural and medicinal
- Geographic information system and remote sensing

## Central Library

The University of Guilan's Central Library and Documents Center houses approximately 181,000 volumes, consisting of 40,000 Latin and 141,000 Persian texts. The central library strives to offer scientific, research, and educational services to scientific societies, researchers, and educators. Furthermore, this unit possesses a distinct collection of literature on stability and sacred defense, alongside a dedicated library on Imam Khomeini.

## Incubation Center

The University of Guilan's Incubation Center initiated its operations in March 2016 by signing a Memorandum of Understanding with the Ministry of Science, Research and Technology. This center facilitates the emergence and growth of novel careers by providing support services to entrepreneurs. The resulting start-up units embody ideas in a range of fields that drive knowledge-based technology. The preparation of these units aims to establish a self-sufficient and impactful presence in the technological and economic development domain, both nationally and internationally.

## The central laboratory of the university

The University of Guilan's central laboratory, which spans 1300 square meters and has 14 specialized laboratories, is an established member of Iran's Scientific Laboratories Network (ISLN) and a proficient member of the Strategic Technologies Laboratory Network. This center equipped with various facilities, works as a collaborating laboratory of Standards Bureau with a scope of over 430 Agricultural, Food, and Chemical Products, a Certified Laboratory of Environment, a Reference Laboratory of the Islamic Republic of Iran Customs, a Certified Laboratory of Food and Drug, Certified Laboratory for Evaluation and Identification of Genetically Modified Products, which meets the needs of graduate students, university professors and researchers, government and private companies and institutions, organizations and scientific and research centers and industries. - It is noteworthy to mention that the University of Guilan's central laboratory has achieved the necessary qualifications in compliance with national standards and obtained a certificate of qualification based on the ISO/IEC17025 standard in 2022.

research centers and industries. It is noteworthy to mention that the University of Guilan's central laboratory has achieved the necessary qualifications in compliance with national standards and obtained a certificate of qualification based on the ISO/IEC17025 standard in 2022.

## Achievements

The execution of national and global large-scale initiatives to address societal needs (such as the construction of semi-industrial floating models for water hyacinth collection, self-ventilating structures, rainwater purification devices, oil pollution elimination bacteria, water humidity measuring sensors are some remarkable achievements of the University of Guilan.

# GRADING SYSTEM

The Iranian grading system is based on a 0 to 20 scale with 10 as the lowest passing grade for undergraduates. Moreover, the passing grade for the master's is 12. The cumulative GPA for graduation must be equal to or higher than 12 and 14 for Bachelor's and Master's degrees, respectively. Students who end a semester with a GPA under 10 and 12 are placed on academic probation for next semester in Bachelor's and Master, respectively. The

students on probation cannot choose more than 17 units. Should this happen in three successive semesters or any four semesters, the student is disqualified and his studies are terminated. The following table is most commonly used by world institutions and universities to convert from the Iranian grading system.

UG Grading System	Scale 1	Scale 2	Description mentioned
16 - 20	A	1	Excellent / highest distinction
14 - 15.99	B	2	Very good / higher distinction
12 - 13.99	C	3	Good distinction
10 - 11.99	D	4	Acceptable
0 - 9.99	F		Fail

Transcript of records:

Students who graduate from the University of Guilan will receive their Degrees and Transcripts when they leave the country.

There are 7 boy dormitories on the campus of the University of Guilan, and the dormitories for girls are located on the campus of the Faculty of Physical Education. In addition to the mentioned dormitories, there are 12 self-managed dormitories in Rasht and Rudsar cities, which are licensed by the University of Guilan and work under the rules and regulations of the university, and are ready to provide services to students. In addition to the dormitories, there is also a guest house on the main campus of the university.

These dormitories are available for unmarried non-Iranian students, upon their request. They can be accommodated in campus dorms or in other dormitories located in different parts of the city.

Accommodation costs depend on the provisions of inter-university agreements and living conditions. It is worth mentioning that the provision of housing (and related expenses) for married non-Iranian students has to be paid for by themselves.

## Dormitory Fees Euros/year

Degrees	Total fee (Euros)	Description
Bachelor's (rooms for 3 and 4 people)	220	160 Euros for 9 months 60 Euros for Summer
Master's and Ph.D. (rooms for 2 and 3 people)	265	175 Euros for 9 months 90 Euros for Summer

The estimated cost of living:

Housing : 100 - 200 Euros per month  
Public Transportation: 30 - 40 Euros per month

# ACCOMMODATION

# STUDENT LIFE & SPORTS

5 food-providing centers are responsible for cooking and distributing food for three meals a day from Saturday to Thursday every week. In addition to student food courts, there are two private restaurants on the main campus of the university and one private restaurant in the Faculty of Physical Education, which offers a variety of dishes at an affordable price.

Also, the university of Guilan has a counseling center, a health center, and a central library that meets the needs of students in the relevant fields.

This university has 14 indoor and outdoor sports halls. Of these, two gyms are located on the main campus of the university, 11 gyms are located on the campus of the Faculty of Physical Education, and one gym is located on the campus of the Faculty of Natural Resources of the Someh-Sara.
